Education

Bachelor's Degree in Computer Science, Sohag University   2019 – 2023

Bachelor Degree: Very Good

Project Grade: Excellence

Experience

EDGE-Pro for Information Systems   5/2024 – present
As a Junior Frontend Developer at Edge-Pro Company, I played a crucial role   Cairo, Egypt
within our dynamic web development team. My main focus was on crafting and
upholding innovative web applications, which formed the backbone of our company's
digital offerings.

* Far Away App – Travel List

A travel list website that allows you to create and manage your packing list for your upcoming trips.

Key Features
- Create Custom Packing Lists: Easily create packing lists tailored to each trip.
- Manage Items: Add, edit, or remove items from your packing list with just a few clicks.
- Organize by Categories: Categorize your items (e.g., clothing, toiletries, gadgets) for better organization.
- Track Progress: Check off items as you pack them to keep track of what's left to do.
- Intuitive Interface: Enjoy a clean, intuitive interface that makes packing list management a breeze.
- Responsive Design: Access your packing lists from any device, whether you're at home or on the go.

Built with:
React.js, State Management, Derived Staes, Lifting State up, Form Handling in react.
